## July 11-15, 2010

Muslim people live throughout the Middle East, Africa, Europe, Central and Southeast Asia, Australia and even right next door in America. How can we reach out to our Muslim neighbors and to Muslims around the world with the love of Jesus?

We have exciting activities for you as you EXPERIENCE and LEARN about cultural and religious differences of our Muslim neighbors and how we can bridge the gap with the message of the Gospel.

Join us in an awesome adventure this summer as campers are challenged in creative and exciting ways to pray and expand their understanding of God's call to missions throughout the world.

Doug and Peggy, the Northwest WorldVenture staff will be happy to answer questions.
