

Spring Special – “Beauty out of Asphalt”

Each year we are amazed at our little garden of bright, cheery daffodils that pop up from the cracked, aged asphalt in a hidden corner of our property. And we are amazed at the continual transformation that an unfinished camp like ours makes in the lives of kids like Alyssa (see March 18 eNews). We are also amazed at the interest, prayers, involvement and generosity of people like you. If you would be interested in helping us to finish our dining areas, we invite you to read through the MENU below, and prayerfully consider which items tickle your fancy the most. Please sit back, relax and enjoy helping to bring Beauty out of Asphalt.
